

## **Institutional Distinctiveness (2018-19)**

### **Promotion of Professional Enhancement and Employability**

The emphasis to promote and amalgamate the traditional discipline with the career-oriented programmes has resulted into the continuing thrust on typical courses, which became the popular programme among the students. This is achieved through moderating and mixing curriculum design in tune with the global requirement blended with innovative teaching – learning methods. Inducting the students into various such programs and activities, guest lectures and workshops enables them to develop their core competency to work towards their career aspirations and opportunities and to achieve their desired academic and career goals.

The university focus on reviving, promoting and establishing the rich cultural legacy of the region has started bearing the result as many students especially the girl students are opting these programmes and the Gross Enrolment Ratio has increased in last two years.

The mission of the University to empower students and to provide them access to meet the challenges of collaborative and competitive globalized environment has received wide impetus during the last year. This is achieved through taking part in various co-curricular and extracurricular activities. The hosting of the two major cultural festivals, viz. East Zone Inter-University Youth Cultural Festival (PURVOTSAV) and Bihar State Inter-University Cultural Festival (TARANG) brought laurels in the kitty of the University. In the PURVOTSAV event, our University stood first in On-the-spot photography, second in Poster making, and third in Light Vocal Solo and Skit. Among the 29 events participated by the thirteen Universities of Bihar in the TARANG festival, our University became the overall champion. Such distinctive achievement by students of this University at state and national level is the glaring testimony to the above said fact.

The adoption of two villages namely *Awam* and *Choti Ladha* highlights our efforts to promote the active participation of students and teachers to uplift and develop the proper environment of holistic and hygienic lifestyle.
